

WEEPING GARDEN HOSE Q16(01)
Installation Instructions

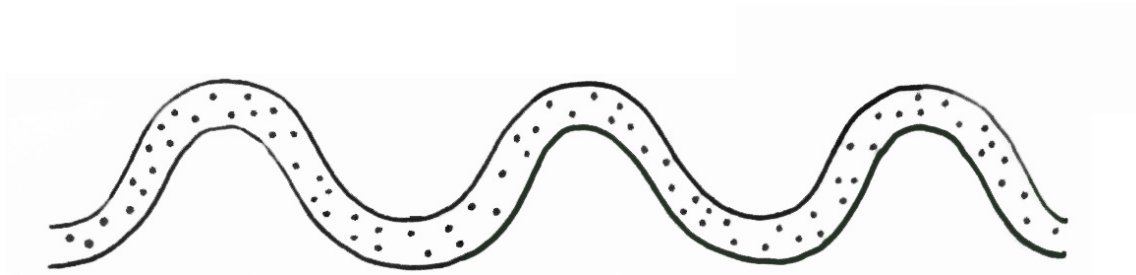

Length Ordered: _____ **metres**

1. Lay out the Weeping Hose in the required position. It may be used on the surface or be buried up to 6" below the ground.

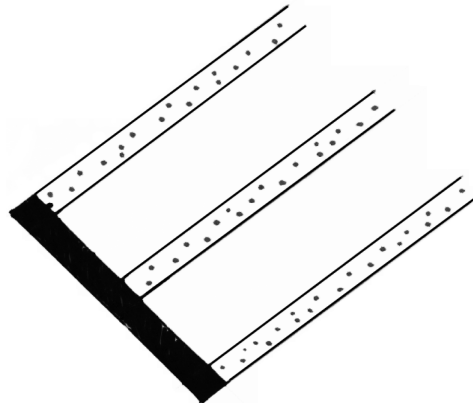

Either

“Snake” it around the area to be watered.

Or

Lay it out in straight lines. Use standard 1/2" hosepipe and 1/2" fittings to join and branch the weeping hose to suit your layout (not supplied).

2. Connect the Weeping Hose to your water supply (either mains water or water butt) using standard 1/2" hosepipe and fittings (not supplied).
